Standard fabrics and piping

Photographic fabric scans are displayed as a guide and colour variations may occur. If needed, we advise you request actual fabric samples before ordering. Each fabric roll is unique and it can differ in shade between different batches. A complete overview with information on which fabrics are best suited for our various products can be found in the price list.

*Wooly has been produced from recycled wool. It may be leftover materials from garment manufacturing or other wool products that have been recycled. Each produced kilo of pure new wool generates 9 kg of carbon dioxide. Processing 1 kg of recycled wool generates only 0.5 kg of carbon dioxide. Positive environmental impact due to less water consumption, energy and lower CO₂ impact.
