

hush low

Sofa

Design

The Hush Low Sofa is a proud and wider version of the Hush Low chair. Ideally suited for reception lounges and public spaces, Hush Low Sofa makes sense of the distinctive Hush profile whilst taking on its own elegant characteristic.

Technical

The main body of the Hush Low sofa is constructed from moulded plywood and CHMR foams. Base options are constructed from mild steel and finished with a hard-wearing polyester powder coat. The wooden base is constructed from turned hardwood and finished with a matt lacquer.

*All dimensions quoted are rounded to the nearest 5mm or nearest 1/2 inch.

 - Vertical upwards static load on arm rests
- Seat and back durability test
 - Seat front edge durability test
 - Leg forward static load test
 - Leg sideways static load test
 - Seat impact test
 - Back impact test
 - Arm impact test

Structural testing certifications

HUSHBSL
Hush chair on sled bas
BS EN 16139:2013, Level 2
Static load 200kg

HUSHBWD
Hush chair on wooden base
BS EN 16139,2013, Level 1
Static load 160kg

HUSHBSW
Hush chair on swivel base
BS EN 16139,2013, Level 1
Static load 160kg

Flammability

The cold cure foam material has been tested to meet the following standards:

British standard
5852:2006 Part 2

California Technical Bulletin
117-2013

Italian standards
UNI 9175-CLASS 1.IM

The flammability standard of the covering fabric is dependent on the choice made by the customer, details of the flammability rating of specific fabrics can be found on supplier's websites listed below.

Product specific design statement

Hush Low Sofa is available with 2 different base options but for this document we have used:

Hush Low Sofa two seat with sled base

The inner shell of Hush Low Sofa is constructed from one solid moulded plywood form with the frame then being covered with CMHR foams and fully upholstered with fabric.

The Hush shell and base is assembled together with dry fixings allowing the upholstered shell to be easily broken down into separate materials with hand tools.

The Hush Low sofa sled base is machine bent from mild steel rod, then weld jointed together and hand polished to a smooth surface. The steel rod is then finished with either chrome plating or polyester powder coat.

Where sustainable sources are quoted, and a chain of custody is required by a customer this must be indicated on the purchase order to naughtone. A chain of custody requested after an order has been placed or delivered may be difficult to recover.

Figures stated in the Environmental product summary may vary based on model and options selected, we have based this document on a specific example when produced in the United Kingdom. Recycled content calculations are taken from supplier information and industry averages, material variables are likely to affect the figures which may result in higher or lower percentages.

This document will be reviewed and updated periodically and is subject to change without notice.
