

njord

KUSCH+CO

Straight lines with delicate curves. You can tell at first glance that Njord is rather exceptional! The material wood is worked into an unusually slender frame. The seat shell, entirely made of anthracite polyester felt, seduces with its organic design and the soft touch of its materiality. Four internationally recognised design awards provide convincing proof that the Njord armchair stands out above the rest.

Design by Scaffidi & Johansen

Antonio Scaffidi and Mads K. Johansen both graduated from the Danish Design School in Copenhagen. Whereas Antonio Scaffidi benefits from the symbiosis between his fiery Italian temperament and Nordic culture, Mads K. Johansen was driven by his artistic passion as cabinet maker. Their creative process is centered around flawless efficiency and design as comprehensible visualization. Mads K. Johansen's life journey ended in autumn 2014.

Variations

3000 Stacking armchair

An eye-catching design with a new level of comfort. As light as a side chair. The seat shell moulds to the body, offering the comfort level of an armchair. Optionally available with an upholstered seat pad.

Fire Prevention

Depending on the environment, contract seating has to be able to fulfil very specific requirements. Interior designers and planners sometimes have to clear difficult hurdles: such as exacting fire prevention regulations.

Wooden parts

As standard, wooden parts are protected by a UV curing, environmentally harmless, water-based lacquer meeting all the requirements of "low flammability" acc. to DIN EN 13501 B s2 d0.

Seat shell

The felt seat shell meets the standard EN 1021 part 1/2.

Upholstery

The upholstered pads are optionally available with flame retardant foam.

Test reports in compliance with national and international standards document the laboratory fire tests conducted on different series finished with a wide variety of materials.

With regard to the upholstery, e.g. with leather, artificial leather as well as many textile fabrics, or to our unupholstered variations featuring a

plywood, laminated or plastic seat shell, most of our series meet the following standards:

- Germany: DIN 66084 P-a
- France: NF D 60-013
- Great Britain: BS 5852 Crib 5
- Italy: UNI 9176
- Europe: EN 1021 part 1/2

Table tops

Tops made of HPL full core material are low flammability conform DIN EN 13501 B s1 d2.

Please contact us if you wish to receive the test reports.

Quality

Our environmental and quality management systems are certified acc. to DIN EN ISO 14001:2015 and to DIN EN ISO 9001:2015. External audits as well as our in-house laboratory safeguard our quality level.

All variations of series 3000 Njord meet the requirements with regard to stability, static and dynamic load as well as strength and durability in compliance with the current European Directives, standards and regulations.

On top of this, we test most of our contract seating with higher loads and cycles. On request, we conduct individual tests acc. to the customer's specifications.

The coffee table 3000 Njord meet the requirements with regard to stability, static and dynamic load as well as strength and durability in compliance with the current European Directives, standards and regulations.

We are certified in compliance with DIN EN ISO 9001:2015. In our own laboratory, we test our products before their market launch whether they comply with the normative requirements applicable to contract seating, task chairs, and tables, and issue a Declaration of Conformity.

We happily make these Declarations of Conformity as well as our brochure "Mission Statement Quality" providing detailed information on our test procedures available to you – please contact us.

Sustainability

Kusch+Co products stand for long life cycles and optimum recyclability. From the first design drafts of a new product, we take all environmental-relevant components and production processes into consideration, ranging from the materials selection and the design all the way to the manufacturing processes which also contribute towards our sustainable energy balance.

Environmental Product Declarations are available for all series, in accordance with DIN EN ISO 14021 Type II, providing more information about all environmentally relevant aspects, including the Credit Points for the LEED certification of a building. Please contact us for more information.

3000 Njord

Milieuspectra

Ecologische verantwoordelijkheid

Lang voordat een product in productie gaat, denken wij bij Kusch+Co al over de mogelijke gevolgen voor de natuur van alle componenten en productieprocessen.

Duurzaamheid

Kusch+Co interpreteert duurzaamheid als de ecologische, landbouw- en sociale combinatie van milieubeleef, verantwoord beheer en maatschappelijke verantwoordelijkheid. Dit geldt niet alleen voor onze productie, maar vooral voor de communicatie met onze medewerkers, leveranciers en partners. Wij volgen de daad bij het woord.

Certificatie

Om een constante productiviteit te waarborgen zijn alle producten bij Kusch+Co gecertificeerd in overeenstemming met de normen DIN EN ISO 9001:2015 voor kwaliteitsmanagement en DIN EN ISO 14001:2015 voor milieumanagement. Daarnaast kunnen wij op aanvraag ook op andere producten aanbevelen.

Levenscyclus

- De modellen van de serie 3000 Njord bevatten geen gevaarlijke stoffen (zwaartekracht, kwik, PVC). De modellen van de serie 3000 Njord zijn in 100% gerecycled materiaal vervaardigd.
- De modellen van de serie 3000 Njord zijn in 100% gerecycled materiaal vervaardigd.
- De modellen van de serie 3000 Njord zijn in 100% gerecycled materiaal vervaardigd.

Productie

Door het gebruik van 100% gerecycled materiaal in combinatie met een hoogwaardige productieproces worden maximale duurzaamheid en milieuvriendelijkheid bereikt.

Transport

Door de compacte afmetingen van de producten wordt het transport eenvoudig gemaakt. De producten worden in een speciale verpakking geleverd, die het risico op schade tijdens het transport minimaliseert.

Gebruik

Door de robuuste constructie en de gebruiksvriendelijke afwerking zijn de producten geschikt voor zowel binnen- als buitengebruik. De producten zijn in staat om hoge belastingen te weerstaan.

Verwerking

De producten van de serie 3000 Njord zijn in 100% gerecycled materiaal vervaardigd. Het materiaal kan worden gerecycled en opnieuw gebruikt.

3000 Njord

Environmental aspects

Environmental responsibility

Long before the production of a new series, Kusch+Co starts thinking about the possible environmental impact of the production processes and the required components.

Sustainability

Kusch+Co understands sustainability as the ecological, economic and social combination of environmental protection, eco-economics and CSR, not only in terms of production, but also how we communicate with our partners. Sustainability cannot be measured, but it can be earned.

Quality assurance

In order to guarantee a constant high-level product quality, Kusch+Co is certified in accordance with the quality management system DIN EN ISO 9001:2015. On top of this, we test most of our contract seating with higher loads and cycles. On request, we conduct individual tests acc. to the customer's specifications.

Life Cycle

1 Materials

The models of series 3000 Njord are free from hazardous materials (lead, mercury, PVC). All components of series 3000 Njord comply with the legal REACH standards.

2 Production

The production of series 3000 Njord is carried out in a 100% recycled material. The production process is optimized for energy efficiency and waste reduction.

3 Transportation

Due to the compact dimensions of the products, the transport is simplified. The products are delivered in a special packaging that minimizes the risk of damage during transport.

4 Usage

The products are designed for both indoor and outdoor use. They are robust and can withstand high loads.

5 Waste disposal

The products are made of 100% recycled material and are therefore fully recyclable. They can be recycled and reused.
