

Play&Work
Soft Seating

Let's make your space together

I like to play&work here

Think about the perfect workplace for you. Is it a quiet spot where you can concentrate, a comfort zone, or a meeting place? Function creates form, so while arranging a space, you also shape the direction of social relationships.

Your quiet spot

The American Diner module from the Play&Work line has a timeless look and offers more privacy by creating a kind of “room in a room”, perfect for focused work. While everything around is bustling with life, time stops when you get inside.

Your meeting place

With their acoustic properties,
Play&Work sofas can create
a convenient meeting place inside
any space. Upholstered panels
dampen noise, ensuring you are
not distracted by external sounds
while having a conversation.

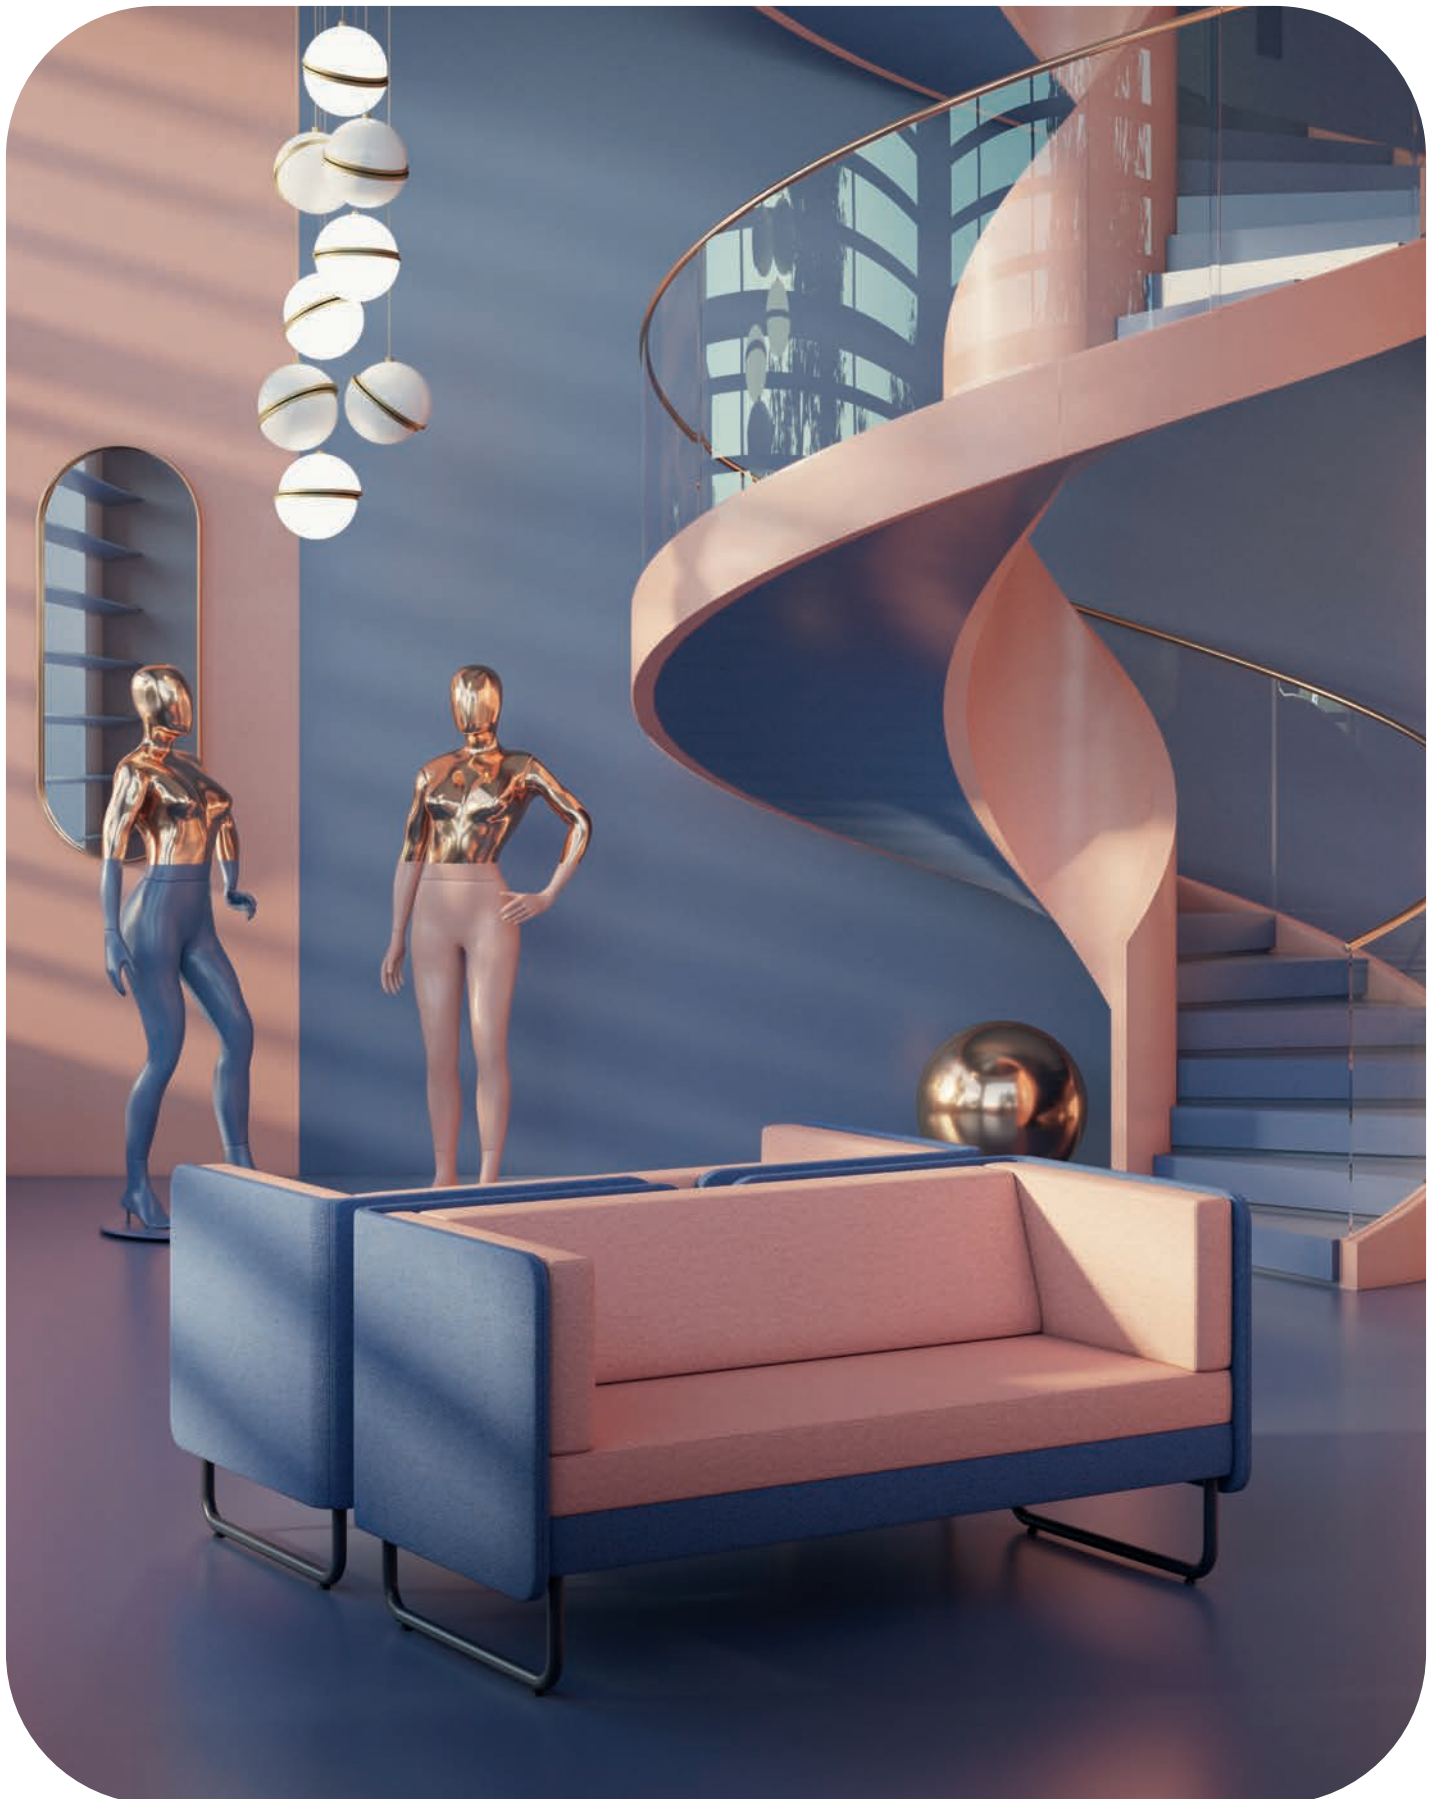

Your comfort zone

Thanks to its minimalist form,
Play&Work Soft Seating line is
neither overwhelming or dominant.
It will fit perfectly into a waiting
lounge, reception area or meeting
place, as well as any other space
you wish to create.

Create your space

Extensive palette of finishes
colours and options, allow you
to create a nearly infinite
number of configurations and
rearrangements. In this simple way,
you can create a bespoke interior
that is tailored to your needs.
