Chair / Barstool

About Polly

Polly takes its name from the material of which the comfortable and ergonomic seat shell is made; polypropylene. Providing very little visual detail as possible, Polly has subtle edge details, a soft texture and just the right amount of flex, all combined to provide a tactile and satisfying sitting experience.

Polly stacks neatly on the ground and on a designated stacking trolley.

Product Specific Design Statement

The **Polly chair** is available in a range of finishes but for the purpose of this document we have a specific example from the range:

Polly Chair with 4 leg base

The Polly chair shell is injection moulded in 30% glass fibre filled polypropylene which is a recyclable material.

Steel inserts (for affixing bases) are screwed into 4 bosses on the underside of the chair; these can be easily turned out to leave an uncontaminated component for recycling.

The Polly chair 4 leg base is machine bent from mild steel tube and finished with a polyester powder coat.

Polypropylene feet are pushed in to the bottom of the chair legs and are easily removed for recycling. The 4 leg base also has 2 x silicon extrusions clipped to the underside of the frame for chair stacking purposes – again these are dry fixed and easily removed for recycling.

The 4 leg base is screwed to the chair shell with 4 x steel screws.
