

Scala

Design Anya Sebton

Absorption

Diffusion

Design: Anya Sebtton

The design of the sound-absorbent Scala is not only developed for visual reasons, but primarily to contribute to a softer soundscape. Scala is a playful paraphrase on corrugated iron that simultaneously employs the functionality of the shape.

The wall-mounted version of Scala is available in different sizes. Portrait or landscape format, to be hung on hidden wall brackets.

The ceiling-hung Scala prevents sound waves to continue upwards in the room, which contributes to a more pleasant soundscape.

The modules are made from compressed felt fabric with a sound absorbing core. Scala is 100% recyclable, and the fabric is approved by EU Ecolabel.

"The inspiration comes from the many houses in Iceland, where not only the roofs, but the facades too, are covered by corrugated iron. It gave birth to the idea of bringing it into the space."

Anya Sebton, designer
