

se:dot

Universal stool

se:dot - UNIVERSAL STOOL

Sitting made easy

The office is a hub for personal exchange as well as a central location for planned and informal meetings. Classic workspaces are no longer just characterised by desks and swivel chairs; rather, they also come with homely elements that provide the feel-good factor. As a universal stool, se:dot fits into any work situation – in workshop rooms, places of retreat and lounge areas. It stands out due to its comfortable seat and creates a cosy look.

Colourful

The lightweight stools create a pleasant atmosphere and enable new design approaches for the office. Corporate colours can also be easily reflected through the se:dot – the broad selection of colours and materials makes this possible.

Harmonious, organic design

Two-colour design possible

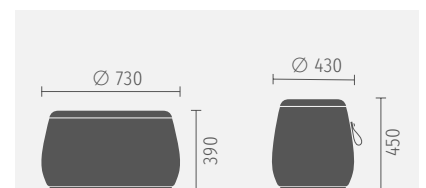

Leather carry strap on the side of the high stool

Anti-slip fabric on the underside

Sustainable

Cardboard, shaped foam, wooden plate, cover and leather carry strap: As se:dot is only composed of a few components, it can be disassembled for recycling according to type.

Two sizes provide variety when they are combined
