

TeePee4

# TP4

Recent workplace studies tell us that the largest productivity gains can be made by facilitating areas for individual focused work, following collaboration.

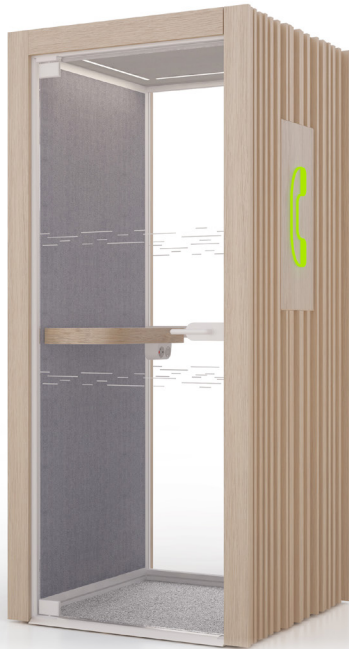

The TP4 telephone booth provides a private acoustic space (to 34dB) for today's workplace. From individual focused work to conference calls, the TP4 booth provides a space to avoid every day workplace distractions.

# TP4 /FOCUS

Boasting a generous work shelf, the /FOCUS specification facilitates tablets and laptops alike for extended periods of individual working.

- Oak relief outer panels
- White frame and latch handle
- Camira Synergy upholstered internal panels
- Camira Nexus Pewter ceiling panel
- Concealed airflow unit
- LED Quad Strip
- Power and USB charge
- Red / Green LED Occupancy Indicator
- 285mm / 11.2" Work Shelf

# TP4 /CLASSIC

Privacy from the surrounding workspace is delivered with this /CLASSIC specification, from the warmth of the oak relief outer to the internal charging point and work shelf.

- Oak relief outer panels
- Anthracite frame and latch handle
- Kvadrat Remix upholstered internal panels
- Camira Nexus Pewter ceiling panel
- Concealed airflow unit
- LED Quad Strip
- Power and USB charge
- Red / Green LED Occupancy Indicator
- 200mm / 7.87" Work Shelf

# TP4 /BLACK

With its striking monochrome aesthetic, the /BLACK edition embodies simplicity and functionality whilst supporting flexible working.

- Black fluted outer panels
- Black frame and latch handle
- Kvadrat Remix upholstered internal panels
- Camira Nexus Pewter ceiling panel
- Concealed airflow unit
- LED Quad Strip
- Black Power and USB charge
- 200mm / 7.87" Work Shelf in Black

# TP4 /LITE

Pared back, yet without compromise, the /LITE specification supports short term periods of individual focused work. Its oak fluted panels add elegance and detail.

- Oak fluted outer panels
- LED Downlight
- Satin anodised frame
- Camira Lucia upholstered internal panels
- Camira Nexus Pewter ceiling panel
- 200mm / 7.87" Work Shelf

# SPECIFICATION

Specifying TP4 is simple.

Select from the preferred options to build from scratch, or choose one of the pre-configured options.

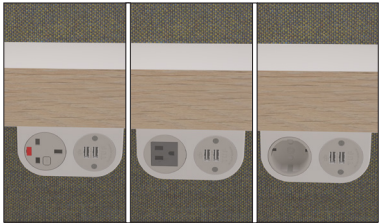

As standard, TP4 includes the following:  
LED downlight, levelling plinth, PIR, Camira Nexus Pewter ceiling panel, latch handle, 2 x acoustic panels, glass door, glass rear panel and manifestations.

# Habitats

Welcome

Home

Flow

TP4 fits perfectly into Welcome, Home + Flow habitats.

A TP4 in a Welcome habitat provides the ideal spot for a quick phone call before an important meeting. Reception areas should create an excellent first impression and showcase what makes an organisation's culture unique.

Home habitats often call for private spaces to escape everyday distractions of the office. TP4 has been designed to overcome noise disturbance and encourage concentration.

Primary pathways and settings promote opportunities for encounters and offer a spectrum of choice. Flow habitats are ideal spaces for the TP4, turning previously unused areas into coveted destinations.
